

Wilson, John - ID# 2126

Birth: 1817 Shrewsbury, Shropshire, England(There were a number of John Wilsons born in this year in Shrewsbury)

Christened: Shrewsbury

Marriage: 13.3.1848 Tyldesley Chapel,* District of Leigh,County of Lancaster,England

* rites and ceremonies of the Lady Huntingdons connexion

Death: 30 Jun 1895 (aged 76 years)Cowra, NSW

Buried: Church of England (Anglican) portion,Cowra Cemetery, NSW

Notes:

He was a Farmer at Canimbla ,near Cowra with his son John.

His death certificate(information supplied by his son, John) said that he was a gardener at the time of his death and that his father had been an engineer. It said that he was from Shrewsbury and had been in the colony 39 years(this means he would have left England 1856(?).At his marriage William Henry Wilson was certified that he was a railway porter living at Kenyon ,Liverpool and that his wife, Mary nee Swain was a servant living at Abercromby Square, Liverpool.

It was initially believed that he was the John Wilson born to John and Mary, baptised at St.Mary's Church, Shrewsbury in 1817. However, that particular child died as a baby. There were another John Wilson born that year in Shrewsbury to a William Wilson (see name of his first born) but there is no proof at this time that he was that child.

John had served for a time,as a ship's cook, on a ship, the "Sarah Lands", 2.6.1853.The captain gave him a discharge and a character reference as being of "good character". The place of discharge was Liverpool,England. It was family folklore that he came to NSW as a ship's cook with his family. As yet have not found evidence to that effect. See notes below.

Spouse(s):

Swain, Mary - ID# 2127

Marriage: 13.3.1848(see above for John) Liverpool, England

Notes:

Came to NSW with wife and two small boys approximately 1853(1856?) and was on the goldfields at Tambooroora and Hill End at the time of Paddy Hannan being there(PH being the person purported to having found gold at KalgoorlieWA). He left for Cowra with his wife, Mary and son, John and commenced farming at Canimbla,near Cowra. His son John married Rebecca Brien and with his family left for New Zealand(the story goes that he was deciding between the New Hebrides or New Zealand and his elder sons had visited NZ and swayed the family in going there. Around Timaru (South island)). Contact has been made with some relatives there in 1974,1996,1998,2004,2008 & 09.

Worked on the railway at Bathurst. Was a gifted artisan-made furniture. Had a number of properties in Bathurst at time of death. He did some gold fossicking around the district.(Especially after rain in the exposed roots of trees in washes by the road side. My father(N.E.Wilson-Bill) recalls a time when he and his father were hiking around the countryside, stopped to rest in a hayshed, leant against a post only to look up and see a snake curling down the post towards his head. Last address was 169 Durham St., Bx.
He died of leukaemia-sent home to die-said on his death bed –sitting upright- “the Lord is my Shephard”.
-kept pigeons(homing) –would send them to Darwin on train-they would fly home-wife wouldn’t the washing out on the day they were due home.
Also enjoyed family photography.

Rev. Mr. Kimberley

Notes:

came with parents and brother to NSW and were at Tambooroora and Hill End goldfields in 1850's. Brother (William Henry) settled in Bathurst.John jnr and parents went on to Cowra and settled on a property at Canimbla,near Cowra NSW.There was a story from our side that John jnr. decided to go to NZ after his sons had been there. A toss up between New Hebrides or New Zealand.

Rebecca Susan Brien was born at Bathurst,NSW 1863 to Henry Brien and Fanny Wilson who were married in 1853, Wesleyan Methodist, Bathurst/Hill End. It is not too presumptuous to say that they were on the Goldfields just as the Wilsons were. They probably knew each others family? John Wilson and Mary and young John went to Cowra as did the Briens.

Henry Brien died in Cowra,1921. His parents were John Brien and Rebecca.
